

Protect loading ramps and eliminate damage to trucks with the RPS SureDock™ Cushion – easy to install and able to withstand the ‘hard knocks’ associated with trucks backing up to the ramp.

The sturdy SureDock™ Cushion provides impact protection for trucks and loading ramps

Benefits

- Tough rubber construction and thick rubber wall provides maximum impact protection and eliminates damage to trucks and ramps
- Easy to install and can be retro-fitted
- Cost effective to purchase and saves money in costly repairs to ramps and vehicles

Applications:

- Loading Ramps
- Vehicle bumpers

The RPS SureDock™ Docking Cushion is the only docking cushion of its size and capability in the market today! Developed to withstand ‘hard knocks’ and constant battering from trucks backing up and ‘bumping heavily’ into them **these cushions will save you money through reduced damage to both equipment and vehicles.** The durable rubber docking cushion is easily attached to either the upright poles or horizontal base of the loading ramp and provides unbeatable protection for years to come.
